

Project Name	Extraordinary Circumstance	Present	Significant Effect?	Information/Requirement
Blackfoot Buried Telegraph	B1 - Floodplains or Wetlands	No	-	
	B2 - Municipal Watersheds	No	-	
Erickson Ridge Exploration	B1 - Floodplains or Wetlands	Yes	No. Design features sufficient to avoid impacts to floodplains, wetlands, and RHCA.	Is the following a common Design Feature? <i>"Place weed free straw bales or install silt fence in places as identified by a Forest Service representative to minimize sediment migration from stockpiles and disturbed ground."</i> I ask due to requirement of having a FS representative. This feature is included for the other two exploration projects
	B2 - Municipal Watersheds	Yes	No	
Forestwide Stand Improvement	B1 - Floodplains or Wetlands	No	-	
	B2 - Municipal Watersheds	Yes	No	
Gold Hill Exploration	B1 - Floodplains or Wetlands	Yes	No. Design features sufficient to avoid impacts to floodplains, wetlands, and RHCA.	With the two proposed stream crossings, should we use the following Design Feature from the FS list: <i>All reconstructed and temporary constructed road segments within RHCAs would be graveled 100 feet on either side of the crossing upon completion of reconstruction / construction.</i>
	B2 - Municipal Watersheds	No	-	
New Cingular Wireless Cellular Tower	B1 - Floodplains or Wetlands	No	-	
	B2 - Municipal Watersheds	No	-	
South Orogrande Exploration Drilling	B1 - Floodplains or Wetlands	Yes	No	Design features are sufficient to avoid impacts to floodplains, wetlands, and RHCA.
	B2 - Municipal Watersheds	No	-
